CONSTRUCTION NOTICE

TREE AND FENCING REMOVAL: HUTCHINSON BLVD BETWEEN E LINCOLN AVE AND HILLCREST RD

Starting on or around Wednesday, February 3, 2021

The New York State Department of Transportation (NYSDOT) has initiated a project to replace bridges in lower Westchester County, including the East Lincoln Avenue bridge in Mount Vernon and Pelham.

NYSDOT is advising residents of temporary tree and fencing removal that will take place along the east side of Hutchinson Boulevard in Mount Vernon. Tree and fencing removal is required for construction of a box culvert to reduce flooding in the area as part of NYSDOT project D900049 Lower Westchester Bridge Bundle, East Lincoln Avenue Bridge. Fencing and landscaping will be restored at the end of the project.

Thank you for your patience and cooperation as NYSDOT continues to improve transportation infrastructure across Westchester County.
